

*Tropitone*<sup>®</sup>

**CURVE**

CHAISE

## ASSEMBLY INSTRUCTIONS

Congratulations on the purchase of your Tropitone® Curve Chaise or Curve Chaise with Riser. Read through all steps before fastening components together.

### CAUTION!

**ASSEMBLED FURNITURE IS HEAVY. ASSEMBLE AT PLACE OF USE.** Assemble furniture on a soft surface (i.e.: carpet, cardboard) to prevent scratches.

Do not assemble with electrical tools, including battery powered ones.

Do not try to lift or flip furniture components with only one person. Components may be heavy and awkward to handle, and may result in injury to persons or damage to property if not lifted properly.

**Do not remove the black plug (B) under the Chaise. (See illustration below)**

## FOR USE IN WATER

Curve Chaise is suitable for use in or out of water. Water depth as illustrated below with the Curve Chaise is 7", maximum is 14". For the Curve Chaise with Riser, average water depth is 10", maximum is 18".

Holes (A) allow water into the Chaise for stability when used in water and to drain water. To allow water into the Chaise, place Chaise in the water and rock back and forth.

**Do not remove the black plug (B) under the Chaise.**

✓ Check that all hardware and components are in your carton before you start assembly.

| REQUIRED TOOL(S)  | HARDWARE  |   |
|---|---|---|
|  |  |  |
| Phillips Head Screwdriver   | (4) Screws #14 x 2"   | (4) Washers   |

| COMPONENTS  |   |
|---|---|
| <b>A</b><br> | <b>B</b><br> |
| (1) Chaise  | (1) Riser   |

| ASSEMBLY STEPS   |   |
|--|---|
|  <b>#14 x 2" x 4</b> | <ol style="list-style-type: none"> <li>1. Place the Riser (B) on the Chaise (A). Center the top of the Riser to the Chaise seams and confirm the four pilot holes in the Chaise are visible through the Riser.</li> </ol> |
|  <b>x 4</b>         | <ol style="list-style-type: none"> <li>2. Insert screws and washers as shown and tighten firmly by hand.</li> </ol>   |
