(milky white, dries clear)

Additional Items Needed

Clean Towel
Lint Free Cloth
(one per Patina Finish)

- ✓ **Sanding** is only necessary to reduce the visibility a scratch (not improve bonding). If sanding is indicated, it can be omitted if cosmetically not needed. Sand only the minimum area to complete the repair. Sanding more area may increase the visibility of the scratch.
- ✓ **Read all steps** applying to your table-top surface before beginning to touch up the scratch.
- ✓ **Additional care information** and a “How-to” video to Touch Up Stoneworks® are available at www.tropitone.com – click on Product Care.

Stoneworks® Table Top Cleaning

Avoid build-up of grease and stains by washing regularly with a non-abrasive sponge or soft bristle brush with a cleaning solution with 1/4 cup (2 oz.) mild liquid soap in a gallon of lukewarm water (100° F / 38° C). To release embedded dirt, use a vinegar and water solution (equal parts each). Rinse thoroughly with clean water.

Granite Area

1. Using the Scotch-Brite® pad, lightly sand the scratch until smooth. Sand only the minimum area to complete the repair. Sanding more area increases the visibility of the scratch.
2. Wipe with clean towel.
3. Dip sandpaper in water and lightly sand the scratch until area has a dull look and the scratch is not visible.
4. Wipe with clean towel.

Stone Area & Palazzo

1. Using the sandpaper, lightly sand the scratch. Be careful not to smooth out the inherent stone texture.
2. Wipe with clean towel.
3. Using a lint free cloth, lightly wipe the Patina Finish over the sanded area.
4. Wait 30 seconds and lightly wipe with lint free cloth.
5. Repeat steps 3 – 4 as needed to achieve desired appearance.
6. Allow Patina Finish to dry, approximately 1½ hours.
7. Apply a light coat of Clear Coat Sealer with a lint free cloth. Allow to dry before use, approximately 4 hours.

Sabia

1. Wipe with clean towel.
2. Using a lint free cloth, lightly wipe Patina Finish over the scratch.
3. Wait 30 seconds and lightly wipe with a lint free cloth.
4. Repeat steps 2 – 3 as needed to achieve desired appearance.
5. Allow Patina Finish to dry, approximately 1½ hours.

Cabretta

1. Wipe with clean towel.
2. Using a lint free cloth, lightly wipe one Patina Finish over the scratch.
3. Wait 30 seconds and lightly wipe with a lint free cloth.
4. Repeat steps 2 – 3 as needed to achieve desired appearance.
5. Allow Patina Finish to dry, approximately 1½ hours.
6. Apply a light coat of Clear Coat Sealer with a lint free cloth. Allow to dry before use, approximately 4 hours.

Zagora

1. Wipe with clean towel.
2. Using a lint free cloth, lightly wipe Patina Finish over the scratch.
3. Wait 30 seconds; lightly wipe with a lint free cloth.
4. Repeat steps 2 – 3 as needed to achieve desired appearance.
5. Allow Patina Finish to dry, approximately 1½ hours.
6. Apply a light coat of Clear Coat Sealer with a lint free cloth. Allow to dry before use, approximately 4 hours.

Tropitone

Summit

1. If the scratch is in the center of the table (textured area), go to step 2. On the rim (border), use sandpaper to lightly sand the scratch.
2. Wipe with clean towel.
3. Using a lint free cloth, lightly wipe the dark Patina Finish over the scratch.
4. Wait 30 seconds and lightly wipe with a lint free cloth.
5. For Kaffee (KAF) finish, go to step 7. For Shadow (SHA), lightly apply a small amount of gray Patina Finish to “feather” gray over the black Patina.
6. Wait 30 seconds and lightly wipe with a lint free cloth.
7. Repeat steps 3 – 6 as needed to achieve desired appearance.
8. Allow Patina Finish to dry, approximately 1½ hours.
9. Apply a light coat of Clear Coat Sealer with a lint free cloth. Allow to dry before use, approximately 4 hours.
